## OBJECTIVE:

To be able to work for an encouraging and stable company that will assist me in developing, improving, and obtaining the necessary skills in order to become the best engineer possible.

---

## TECHNICAL SKILLS:

**Technical Skills:** JavaScript, Responsive Design, HTML5, CSS3, Bootstrap, J-Query, PHP  
Basic knowledge, Cross- browser compatibility

**Tools:** Chrome Developer Tool, Visual Studio Code, Notepad++

---

## WORK EXPERIENCE:

**Dimakh Consultants, Pune**

(Feb 2021 – Working)

### Roles and Responsibilities:

- Collaborated closely with clients to comprehend their requirements, translating them into effective UI designs.
- Successfully converted design mockups from Figma, Adobe XD, or PSD to pixel-perfect, cross-browser compatible HTML and CSS.
- Implemented front-end code using Bootstrap, JavaScript, HTML5, and CSS3 to enhance user interactions and optimize user experiences.
- Demonstrated proficiency in web standards-based UI development, incorporating the latest

technologies such as HTML5 and CSS3.

- Led the development of a responsive website that seamlessly adapted to various devices, including mobile, desktop, and tablets.
- Basic knowledge of PHP, including form handling, dynamic content integration, and website data retrieval.
- Experience using AI tools for debugging, code optimization, and implementing updates and modifications.
- Contributed creative solutions aligned with business goals, enhancing user engagement and satisfaction.
- Consistently met project deadlines while upholding high-quality coding standards.
- Mentored junior team members, offering guidance on best practices and aiding in their professional growth.
- Actively participated in code reviews, identifying opportunities for code improvements and enhancements.
- Maintained effective communication with both the development team and clients, ensuring smooth project progression.
