WORK EXPERIENCE

Frontend Developer

February 2021 – May 2026

Dimakh Consultants · Pune, Maharashtra

Key Achievements

- Delivered frontend development for 50+ client projects across education, corporate, real estate, healthcare, and e-commerce sectors.
- Converted Figma, Adobe XD, and PSD designs into pixel-perfect, responsive websites with cross-browser compatibility.
- Developed React.js-based applications using component-based architecture, React Router for navigation, useState and useEffect hooks for state and lifecycle management, Context API for state sharing, and REST API integration for dynamic data handling.
- Mentored junior developers and supported team growth through regular technical guidance and code walkthroughs.
- Reduced development time by strategically integrating AI-powered tools for debugging and code optimization.
- Maintained consistent on-time delivery and high-quality coding standards across all client engagements.
- Improved website performance and Lighthouse scores through lazy loading, code splitting, and asset optimization.

Core Responsibilities

- Develop responsive web applications using HTML5, CSS3, Bootstrap, JavaScript, and React.js following mobile-first principles.
- Create mobile-first and cross-browser compatible user interfaces; convert business requirements into effective frontend solutions.
- Perform code reviews, establish coding standards, and maintain high-quality, maintainable codebases.
- Integrate REST APIs and backend services for dynamic content and form handling.
- Implement SEO best practices and WCAG accessibility standards across all projects.
- Coordinate with clients and stakeholders throughout project execution and provide regular progress updates.
- Maintain and enhance existing websites and web applications.
